Takeshi UESUGI is a high school boy with an extraordinary power. His frightened mother finally decided to murder him with a knife. Half near death, Takeshi meets a guy called Nekomata and a girl called Yukiko, who claims to be a snow-woman. They tell him that Takeshi is actually a reincarnation of a "baku," a monster that eats nightmares. What does fate have in store for Takeshi !? Aside from "Baku," this volume also includes the short story, "Mephisto," which is about a 4th generation mephisto whose job is to fight monsters and spirits. This is a much awaited Hakase MIZUKI's eccentric short story volume.

Everyone has a past and memories that they cannot forget. An important promise or a nightmarish memory.

Things that are shaped like a human or animal often have spirits.
